# Comprometidos con la salud y el medio ambiente

## *Committed to health and the environment*

Los productos Castey están diseñados con materiales eficientes, duraderos y reciclables, garantizando un profundo respeto por el entorno. Nuestro compromiso medioambiental se centra en tres pilares clave:

### BASE INDUCTORA

Nuestra exclusiva base inductora garantiza la máxima eficiencia energética. Nuestras piezas se calientan rápidamente, manteniendo una temperatura constante en toda la superficie. Esto se traduce en una cocción rápida y uniforme, con menor gasto energético y reduciendo tanto el impacto ambiental como el coste económico.

### PRODUCTO TOTALMENTE RECICLABLE

Promovemos la recuperación de las piezas usadas porque el aluminio de nuestros productos se puede reciclar para ser reutilizado en otras aplicaciones.

### ANTIADHERENTE ECOLÓGICO Y SEGURO PARA LA SALUD

Nuestros revestimientos antiadherente son 100% libres de PFOA. Gracias a nuestra tecnología Durion®, garantizamos que nuestros productos no representan ningún riesgo ni para el medio ambiente ni para las personas.

*Castey products are designed with efficient, durable, and recyclable materials, ensuring deep respect for the environment. Our environmental commitment focuses on three key pillars:*

### INDUCTION BASE

*Our exclusive induction base guarantees maximum energy efficiency. Our pieces heat up quickly, maintaining a constant temperature across the entire surface. This results in fast and even cooking, reducing energy consumption and lowering both environmental impact and economic costs.*

### FULLY RECYCLABLE PRODUCT

*We promote the recovery of used pieces because the aluminum in our products can be recycled and reused for other applications.*

### ECO-FRIENDLY AND HEALTH-SAFE NON-STICK COATING

*Our non-stick coatings are 100% PFOA-free. Thanks to our Durion® technology, we guarantee that our products pose no risk to the environment or human health.*

# Bienvenido al mundo Castej

## *Welcome to the world of Castej*

### UTENSILIOS DE COCINA DESDE 1565

Los productos Castej recogen el legado artesano de la fundición artística Barberí. Sus orígenes se remontan al siglo XVI, hecho que nos convierte en los fabricantes de menaje más antiguos del mundo.

Durante su larga historia, la fundición artística Barberí ha producido campanas, esculturas y, por supuesto, artículos de cocción. Algunas de las antiguas cacerolas realizadas por Barberí aún se conservan y hoy se venden como antigüedades. Las más antiguas datan del siglo XIX, aunque hay evidencias de esta actividad ya en el siglo XVII.

En 1996 Barberí amplió su gama de productos de cocción y empezó a utilizar recubrimientos antiadherentes. Gracias a esto la producción creció y se creó una nueva empresa para potenciar esta rama productiva. Desde entonces, Castej ha continuado el trabajo iniciado por Barberí hace más de 300 años.

### COOKWARE MANUFACTURERS SINCE 1565

*Castej products capture the handcraft legacy of Barberí artistic foundry. As our history dates back to the 16th century, we are one of the oldest housewares companies in the world operating today.*

*During its long history, the Barberí artistic foundry has produced bells, sculptures and, of course, cookware. Some of the old casseroles made in the foundry have lasted until the present days. Nowadays, these ancient casseroles made of bronze are sold as antiques. The most ancient ones date back to the 18th century, though some evidences show this activity started before.*

*In 1996 Barberí extended its assortments to include non-stick cookware. Barberí cookware division had grown and it was necessary to create a new subsidiary to better serve the global markets. Since then, Castej is committed to continue the job started by Barberí more than 300 years ago.*

HI-QUALITY FOR HI-COOKING

## EL LEGADO QUE NOS IMPULSA AL FUTURO

Además de la experiencia y el conocimiento adquiridos gracias a este extraordinario legado, la clave de nuestros productos es el diseño y la innovación. Hemos construido nuestro presente preguntándonos cómo hacer que nuestros productos sean más resistentes, duraderos y funcionales. Hemos desarrollado tecnologías propias y hemos mejorado nuestros diseños para adaptarlos a los requisitos actuales, haciéndolos más prácticos cuando se usan en la cocina y, por supuesto, más respetuosos con el medio ambiente. Hemos aplicado materiales inocuos y hemos buscado la máxima eficiencia energética, asegurando a la vez la viabilidad de su reciclaje.

Nuestras colecciones actuales representan el resultado de todo este esfuerzo y muestran nuestra pasión por el trabajo bien hecho. Simbolizan el final del camino que iniciamos hace cientos de años y marcan el principio de una nueva etapa en la que nos abrimos a nuevos retos y oportunidades.

## THE LEGACY THAT DRIVES US INTO THE FUTURE

*Castey is tradition, experience and knowledge; this extraordinary legacy has passed through the generations along with exclusive unique designs and innovation. We have built our reputation by asking ourselves how to make our products more resilient and functional, by continually improving our technology. Product design for today's needs and uses in the kitchen are manufactured by using environmentally safe standards. Castey introduced innocuous materials of maximum energy efficiency, ensuring all materials are easily recycled.*

*Castey's results of all these efforts are our current collections show the fruit of our passion for achieving a job well done! This symbolizes the culmination of the path and traditions started centuries ago. They also mark the beginning of a new era of challenges and opportunities for Castey.*

# Innovar, nuestra tradición más antigua

## *Innovation is our oldest tradition*

### DISEÑOS EXCLUSIVOS, TECNOLOGÍA ÚNICA E INNOVACIÓN CONSTANTE

Estas son las líneas maestras de la filosofía de todos los proyectos que desarrollamos. Creemos firmemente en la necesidad de mejorar continuamente el diseño, la tecnología y las prestaciones de nuestros productos para darles un valor añadido que los convierta en la elección perfecta de los consumidores.

### DISEÑOS EXCLUSIVOS Y FUNCIONALES

Nuestro equipo de Investigación y Desarrollo trabaja con diseñadores de prestigio internacional. Su principal premisa es que los productos deben ser atractivos, pero sobre todo deben marcar la diferencia a nivel funcional. Esta filosofía ha dado importantes resultados, como los mangos desmontables de las sartenes, asadores y grills. Su sistema exclusivo de fijación de rosca asegura una sujeción siempre perfecta y los mangos no se aflojan con el uso.

### TECNOLOGÍAS PROPIAS PATENTADAS

Hemos desarrollado y patentado tecnologías propias y este es uno de los factores que nos ha dado a conocer en todo el mundo. Fuimos de los primeros en desarrollar y patentar un sistema para que los productos de aluminio fundido pudieran ser utilizados en las cocinas de inducción. También destacan las asas fijas de silicona. Fuimos los primeros en desarrollar una tecnología capaz de evitar quemaduras accidentales al cocinar con aluminio fundido. Aplicamos antiadherentes de última generación que mejoran la resistencia y durabilidad de los productos y evitan que los alimentos se peguen.

### EXCLUSIVE DESIGNS, UNIQUE TECHNOLOGIE AND CONTINUOUS INNOVATION

*These are the master rules we follow and also the philosophy behind all the projects we develop. We believe it is a must to continuously improve the design, technology and products features to give added value and turn them into the costumers' perfect choice.*

### EXCLUSIVE AND FUNCTIONAL DESIGN

*Our Research and Development team works side by side with renowned designers to design our collections. The main premise is our designs must be attractive, but must stand out in functional benefits above all. This philosophy has produced important results, such as removable long handles of fry pans, saucepans, grills and griddles. The exclusive screw system ensure safety secure handling and they never get loosen.*

### OWN PATENTED TECHNOLOGIES

*We have developed several own cookware technologies, and this is one of the keys of our worldwide recognition. We were the first manufacturers that developed a technology that made possible to use cast aluminium cookware in induction cooktops. Permanent attached silicone side handles are also remarkable: we were the first manufacturer to develop a technology to prevent consumers to get accidentally burned when handling cast aluminium handles. We use high tech nonstick coating to avoid food from sticking on the pans and enjoy delicious flavored recipes without adding oils or butters.*

El aluminio fundido es nuestra especialidad. Sus propiedades son ideales para cocinar, y nuestras tecnologías patentadas lo mejoran aún más.

*Cast aluminum is our specialty. Its properties are ideal for cooking, and our patented technologies enhance it even further.*

#### COCINA UNIFORMEMENTE

El aluminio es el metal que distribuye mejor la energía. Todos los alimentos se cocinan por igual.

#### COOK FOOD EVENLY

*Aluminum is the metal that better distributes energy received. It heats uniformly thus cooking food evenly throughout entire cooking surface.*

#### AHORRA TIEMPO Y ENERGÍA

El aluminio fundido se calienta rápidamente y ahorra tiempo y energía para reducir la factura del gas y la electricidad.

#### SAVE TIME AND ENERGY

*As aluminum is a great energy diffuser, pans heats very fast and saves energy and money for you.*

#### NADA VOLVERÁ A PEGARSE

Nuestros productos son perfectos para cocinar sin grasas. Su antiadherente de alta calidad evita que la comida se pegue, incluso sin aceite.

#### FOOD WILL NEVER STICK AGAIN

*Perfect for low fat cooking! Because of its high quality non-stick coating food doesn't stick, even without adding oils, butters or fats.*

#### ÚSALOS EN EL HORNO

Tanto el aluminio como la silicona de las asas resisten hasta 250°C. Y con nuestros mangos desmontables cocinar en el horno es facilísimo.

#### USE THEM IN THE OVEN

*Both aluminium and silicone handles are oven safe up to 250°C / 450°F. Our removable handles make oven cooking super easy.*

#### LÍMPIALOS FÁCILMENTE

Como los alimentos no se pegan, sólo necesitas agua caliente, jabón y una esponja suave. También son aptos para el lavavajillas.

#### CLEAN THEM EASILY

*As food doesn't stick on surface you will only need hot water, soap and a soft sponge. But they are also dishwasher safe.*

#### BASE FULL INDUCTION

Su mayor superficie inductiva hace que sea detectada por las placas de manera eficaz. El acabado liso y uniforme facilita la limpieza.

#### FULL INDUCTION BASE

*Thanks to its wider surface it is easily and effectively detected by induction hobs of all brands. Smooth and uniform finish provides easy cleaning.*

#### ASAS FIJAS DE SILICONA

Aptas para el horno y con protección Fingersafe contra quemaduras accidentales. Siempre a mano.

#### FIXED SILICONE SIDE HANDLES

*Permanently attached silicone handles are always ready to use so you will never lose them. With Fingersafe protection against accidental burns.*

#### MANGOS DESMONTABLES

Diseño ergonómico, cómodos, termoaislantes y fáciles de montar. Su rosca de seguridad evita que se aflojen con el uso.

#### REMOVABLE LONG HANDLES

*Ergonomic design, comfortable, stay cool and easy to attach, thanks to its secure safet.*

DESIGNED IN BARCELONA SINCE 1565

# Castey VULCANO

## INNOVACIÓN, DURABILIDAD Y DISEÑO PARA TU COCINA

Su tecnología la hace altamente resistente al rayado y a la abrasión.

Diseñadas con una base Full Induction para un óptimo rendimiento en todas las cocinas de inducción, incluidas las flexinducción. Fabricadas en aluminio fundido, son duraderas y distribuyen el calor uniformemente. Su revestimiento antiadherente de alta calidad, evita que los alimentos se peguen. Las bandejas y cacerolas tienen asas de silicona para un agarre seguro, y las sartenes, mangos desmontables para un manejo fácil.

## INNOVATION, DURABILITY, AND DESIGN FOR YOUR KITCHEN

*Its technology makes it highly resistant to scratching and abrasion.*

*Designed with a Full Induction base for optimal performance on all induction cooktops, including flex induction. Made from cast aluminum, they are durable and distribute heat evenly. Their high-quality non-stick coating, prevents food from sticking. The trays roasting pans have silicone handles for a secure grip, while the pans feature detachable handles for easy handling.*

- Indefectible
- Contacto perfecto con la superficie de cocina.
- Distribución homogénea del calor.
- Máxima eficiencia energética.
- Non-warping
- Perfect contact with cooking surface.
- Even heat distribution.
- Maximum energy efficiency.

 Acabado liso y uniforme.  
Smooth and thick surface.

 Apta para lavavajillas.  
Dishwasher safe.

 Apta para horno.  
Oven safe.

Los alimentos no se pegan  
incluso sin usar aceite.  
Food does not stick even  
without using oil.

Combinación perfecta de  
elegancia y funcionalidad

*Perfect combination of elegance  
and functionality*

Tapadera con aro de silicona y salida de vapor oculta.  
*Lid with silicone rim and hidden steam releasing system.*

Asas fijas de silicona aptas para el horno con tecnología Fingersafe.  
*Fixed silicone handles oven-safe with Fingersafe technology.*

Pomo de silicona termoaislante con sujeción cómoda y segura.  
*Silicone knob, thermally insulated, with a comfortable and secure grip.*

Antiadherente sin PFOA de alta calidad y durabilidad.  
*High-quality, durable PFOA-free nonstick coating.*

#### MANGOS DESMONTABLES CON FIJACIÓN DE ROSCA

- Gana espacio de almacenaje.
- Retira el mango y mete la sartén en el horno.
- Limpia la sartén fácilmente con el mango desmontado.

#### REMOVABLE HANDLES WITH SECURE SCREW SYSTEM

- Save storage space.
- Remove the handle and put the pan in the oven.
- Easily clean the pan with the handle detached.

## INDUCTION

### MÁXIMA EFICIENCIA ENERGÉTICA EN TODO TIPO DE COCINAS

**Materiales de la más alta calidad, diseño contemporáneo y funcional.**

Destaca por su exclusiva base Full Induction, que garantiza la máxima eficiencia energética en todo tipo de cocinas, especialmente en las de inducción. Las cacerolas y asadores incorporan nuestras asas de silicona patentadas, integradas directamente en el cuerpo de cocción, ofreciendo comodidad y seguridad al prevenir quemaduras accidentales. Los mangos desmontables de las sartenes permiten un almacenaje práctico y la posibilidad de utilizarlas en el horno. Todo ello con un recubrimiento antiadherente de alta calidad, libre de PFOA.

### MAXIMUM ENERGY EFFICIENCY ON ALL TYPES OF STOVETOPS

**Materials of the highest quality for a contemporary and functional design.**

*It stands out for its exclusive Full Induction base, which guarantees maximum energy efficiency on all types of stovetops, especially induction ones. The casseroles and roasters feature our patented silicone handles, directly integrated into the cookware body, providing comfort and safety by preventing accidental burns. The detachable handles of the frying pans allow for practical storage and make them suitable for use in the oven. All this comes with a high-quality non-stick coating, free of PFOA.*

- Indefectible
- Contacto perfecto con la superficie de cocina.
- Distribución homogénea del calor.
- Máxima eficiencia energética.
- Non-warping
- Perfect contact with cooking surface.
- Even heat distribution.
- Maximum energy efficiency.

 Acabado liso y uniforme.  
Smooth and thick surface.

 Apta para lavavajillas.  
Dishwasher safe.

 Apta para horno.  
Oven safe.

Los alimentos no se pegan incluso sin usar aceite.  
Food does not stick even without using oil.

Diseñada para cocinar,  
hecha para durar.  
*Designed for cooking,  
made to last.*

Tapadera con aro de silicona y salida de vapor oculta.  
*Lid with silicone rim and hidden steam releasing system.*

Asas fijas de silicona aptas para el horno con tecnología Fingersafe.  
*Fixed silicone handles oven-safe with Fingersafe technology.*

Pomo de silicona termoaislante con sujeción cómoda y segura.  
*Silicone knob, thermally insulated, with a comfortable and secure grip.*

Antiadherente sin PFOA de alta calidad y durabilidad.  
*High-quality, durable PFOA-free nonstick coating.*

#### MANGOS DESMONTABLES CON FIJACIÓN DE ROSCA

- Gana espacio de almacenaje.
- Retira el mango y mete la sartén en el horno.
- Limpia la sartén fácilmente con el mango desmontado.

#### REMOVABLE HANDLES WITH SECURE SCREW SYSTEM

- Save storage space.
- Remove the handle and put the pan in the oven.
- Easily clean the pan with the handle detached.

# Castey CLASSIC

## OPTIMIZADA PARA COCINAS DE GAS Y VITROCERÁMICA

Cocción uniforme y eficiente, resultados  
sabrosos y saludables.

Fabricada en aluminio fundido, esta colección incorpora una base especial para cocinas de gas y placas vitrocerámica, garantizando la máxima eficiencia energética. Es perfecta para quienes no utilizan inducción, gracias a su peso perfectamente equilibrado, que facilita la manipulación y asegura una experiencia de cocina cómoda y práctica. Además, incorpora un recubrimiento antiadherente de alta calidad, libre de PFOA.

## OPTIMIZED FOR GAS STOVES AND CERAMIC COOKTOPS

Uniform and efficient cooking for flavorful and  
healthy results.

Made from cast aluminum, this collection features a special base designed for gas stoves and ceramic cooktops, ensuring maximum energy efficiency on these surfaces. It is perfect for those who do not use induction, thanks to its perfectly balanced weight, which makes handling easy and guarantees a comfortable and practical cooking experience. Additionally, it is equipped with a high-quality, PFOA-free non-stick coating.

- Indefectible
- Contacto perfecto con la superficie de cocina.
- Distribución homogénea del calor.
- Máxima eficiencia energética.
- Non-warping
- Perfect contact with cooking surface.
- Even heat distribution.
- Maximum energy efficiency.

Los alimentos no se pegan  
incluso sin usar aceite.  
Food does not stick even  
without using oil.

Acabado liso y uniforme.  
Smooth and thick surface.

Apta para lavavajillas.  
Dishwasher safe.

Apta para horno.  
Oven safe.

Funcional y resistente. Todo un clásico de nuestra marca.

*Functional and durable. A true classic of our brand.*

Tapadera con aro inoxidable y salida de vapor.

*Lid with stainless steel ring and steam vent.*

Asas de silicona aptas para el horno con tecnología Fingersafe.

*Silicone handles oven-safe with Fingersafe technology.*

Pomo de acero inoxidable termoaislante con sujeción cómoda y segura.

*Thermo-insulating stainless steel knob with a comfortable and secure grip.*

Antiadherente sin PFOA de alta calidad y durabilidad.

*High-quality, durable PFOA-free nonstick coating.*

# Castey FUNDIX

## PERSONALIZADA A TU ESTILO

### Diseña Tu Propia Batería de Cocina con Fundix.

Fundix es la herramienta más eficaz para la cocina de cada día ya que proporciona los mejores resultados de la manera más rápida y práctica posible. Cuenta con una amplia variedad de colores para adaptarse a todos los gustos. Fundix ofrece la posibilidad de implantar un sistema de comercialización único e innovador que da total libertad al consumidor para diseñar su propia batería de cocina, eligiendo únicamente las piezas que necesita y personalizándolas a su gusto con el color deseado.

## CUSTOMIZED TO YOUR STYLE

### Design Your Own Cookware Set with Fundix

*Fundix is the most effective tool for everyday cooking, delivering the best results in the fastest and most practical way possible. It features a wide range of colors to suit every taste. Additionally, Fundix introduces a unique and innovative sales system that gives consumers complete freedom to design their own cookware set by selecting only the pieces they need and personalizing them with their preferred color.*

- Indeformable
- Contacto perfecto con la superficie de cocina.
- Distribución homogénea del calor.
- Máxima eficiencia energética.
- Non-warping
- Perfect contact with cooking surface.
- Even heat distribution.
- Maximum energy efficiency.

Los alimentos no se pegan incluso sin usar aceite.  
Food does not stick even without using oil.

 Acabado liso y uniforme.  
Smooth and thick surface.

 Apta para lavavajillas.  
Dishwasher safe.

 Apta para horno.  
Oven safe.

Amplia variedad de colores  
para tu cocina.

*A wide variety of colors for  
your kitchen.*

Tapadera con aro inoxidable y  
salida de vapor.  
*Lid with stainless steel ring and  
steam vent.*

Asas de silicona aptas para el horno  
con tecnología Fingersafe.  
*Silicone handles oven-safe with  
Fingersafe technology.*

Pomo de acero inoxidable termoaislante  
con sujeción cómoda y segura.  
*Thermo-insulating stainless steel knob  
with a comfortable and secure grip.*

Antiadherente sin PFOA de alta  
calidad y durabilidad.  
*High-quality, durable PFOA-free  
nonstick coating.*

## TERRACOTA

### ANTIADHERENTE DE 5 CAPAS CON RELIEVE

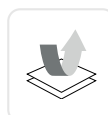

Alta calidad y durabilidad sin PFOA.

Terracota se inspira en la tierra y en el estilo de las cacerolas clásicas de barro para volver al sabor de la cocina tradicional. Su antiadherente de 5 capas es más duro y resistente que el recubrimiento convencional y mantiene intactas sus propiedades durante más tiempo gracias a la protección extra proporcionada por sus dos capas de relieve.

### 5 LAYERS NON-STICK COATING WITH RELIEF

High quality and durability. PFOA free.

*Terracota fry pans design inspiration comes from the soil and the style of the classic clay casseroles to run into the flavour of traditional cooking. Its 5-layers non-stick coating provides more durability and resistance. Relief give extra protection to the non-stick coating to keep release properties intact. It also features all the advantages that have made Castey fry pans become a benchmark of quality, such as safety secure removable handles.*

Los alimentos no se pegan incluso sin usar aceite.  
Food does not stick even without using oil.

- Indeformable
- Contacto perfecto con la superficie de cocina.
- Distribución homogénea del calor.
- Máxima eficiencia energética.
- Non-warping
- Perfect contact with cooking surface.
- Even heat distribution.
- Maximum energy efficiency.

Apta para horno.  
Oven safe.

Apta para lavavajillas.  
Dishwasher safe.

Acabado liso y uniforme.  
Smooth and thick surface.

Limpieza cómoda gracias a su mango desmontable.

Easy cleaning thanks to its detachable handle.

Base Full Induction, mayor superficie inductiva, eficiencia superior.

Full Induction, larger inductive surface, superior efficiency.

Mangos desmontables con fijación de rosca.

Removable handles with secure screw system.

Antiadherente sin PFOA de 5 capas con relieve.

5-layer PFOA-free non-stick coating with texture.

# Castey TITANIUM

## ANTIADHERENTE REFORZADO CON PARTÍCULAS DE TITANIO

Antiadherente con gran resistencia  
a la abrasión y sin PFOA.

Titanium reúne los básicos esenciales de Castey en una nueva colección de aluminio pensada y optimizada para ofrecer la mejor relación calidad-precio y con la garantía que caracteriza a los productos de la marca. Titanium destaca por la gran calidad de su recubrimiento antiadherente, que, gracias a la incorporación de partículas de titanio, ofrece unas prestaciones y una resistencia muy superiores a las de sus competidoras.

## REINFORCED NON-STICK COATING WITH TITANIUM PARTICLES

Non-stick with high abrasion resistance  
and no PFOA.

*Titanium joins together Castey essential basic features in this aluminium collection that offers the best price and performance in the marketplace along with the quality guarantee of all Castey cookware products. Titanium high quality non-stick coating includes titanium particles to achieve superior durability and non-stick properties and stand out from its competitors.*

Mango ergonómico, cómodo y con acabado soft touch.  
*Ergonomic handle, comfortable with a soft-touch finish.*

Encaje especial para voltear tortillas, sujeción segura y giro más fácil.  
*Special fit for flipping tortillas, secure grip, and easier turning.*

## NUEVA COLECCIÓN TRIMETAL INDUCTION®

La estructura más avanzada en baterías  
de acero inoxidable.

La colección Malmö está diseñada para quienes buscan resistencia y tecnología de vanguardia. Fabricada con acero inoxidable de alta durabilidad, incorpora la exclusiva tecnología Trimetal Induction®, que asegura una distribución óptima del calor y una eficiencia energética sin igual. Los mangos y asas, también de acero inoxidable, refuerzan la robustez de cada pieza, garantizando una larga vida útil y un rendimiento excepcional en la cocina.

## NEW TRIMETAL INDUCTION® COLLECTION

The most advanced structure in stainless  
steel cookware.

The Malmö collection is designed for those who seek durability and cutting-edge technology. Made from highquality stainless steel, it features the exclusive Trimetal Induction® technology, ensuring optimal heat distribution and unmatched energy efficiency. The handles and knobs, also made of stainless steel, enhance the robustness of each piece, guaranteeing long-lasting durability and exceptional performance in the kitchen.

Asas de acero inoxidable para un  
agarre cómodo y seguro.  
Stainless steel handles for a  
comfortable and secure grip.

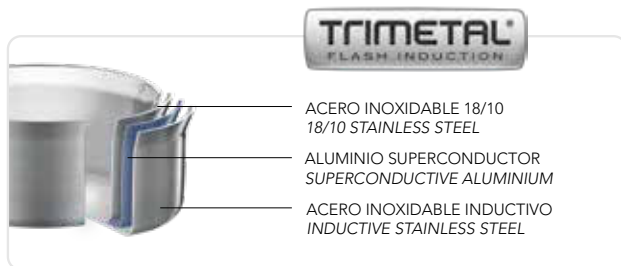

Remaches de seguridad que garantizan  
una estructura resistente y duradera.  
Safety rivets ensure a strong and  
durable structure.

Full Induction, mayor superficie  
inductiva, eficiencia superior.  
Full Induction, larger inductive  
surface, superior efficiency.

Acabado interior satinado y liso.  
Satin and smooth interior finish

Acabado liso y uniforme.  
Smooth and thick surface.

Apta para lavavajillas.  
Dishwasher safe.

# Castey BALTIC

## TECNOLOGÍA TRIMETAL INDUCTION®

La estructura más avanzada en baterías  
de acero inoxidable.

La colección de acero inoxidable Baltic está fabricada con tecnología Trimetal Induction®, la estructura más avanzada en baterías de acero inoxidable que consigue la mejor eficiencia energética. Incorpora mangos y asas fijas de silicona termo-aislante soft touch, que proporcionan una mayor seguridad de agarre y evitan quemaduras.

## TRIMETAL INDUCTION® TECHNOLOGY

*The most advanced structure in stainless steel cookware.*

*The Baltic stainless steel collection is made with Trimetal Induction® technology, the most advanced structure in stainless steel cookware that achieves the best energy efficiency. It features soft touch thermo-insulating silicone handles and fixed grips, which provide greater grip security and prevent burns.*

Asas y mangos integrados de silicona con acabado soft-touch, aptos para el horno.

*Silicone handles and grips with a soft-touch finish, oven-safe.*

Remaches de seguridad que garantizan una estructura resistente y duradera.

*Safety rivets ensure a strong and durable structure.*

## BAMBÚ

Un material 100% ecológico y sostenible.

Nuestros utensilios y tablas de cortar de bambú destacan por su durabilidad, funcionalidad y diseño natural. Son resistentes al agua y a los golpes, no absorben olores ni sabores y son fáciles de limpiar. A pesar de su ligereza, su resistencia es comparable a la de la madera, lo que los hace ideales para el uso diario en la cocina.

## BAMBOO

100% eco-friendly and sustainable.

Our bamboo utensils and cutting boards stand out for their durability, functionality, and natural design. They are water- and impact-resistant, do not absorb odors or flavors, and are easy to clean. Despite their lightness, their strength is comparable to that of hardwood, making them ideal for daily use in the kitchen.

Natural, renewable  
y biodegradable

## UTENSILIOS DE COCINA

Perfectos para tu cocina.

Utensilios de alta calidad, fabricados con silicona de grado alimenticio, libre de BPA, seguros y resistentes al calor. No se derriten ni deforman, y su cabezal de silicona protege el revestimiento de ollas y sartenes. Fáciles de limpiar, son imprescindibles en cualquier cocina.

## KITCHEN UTENSILS

Sperefect for your kitchen.

High-quality utensils, made from food-grade silicone, BPA-free, safe, and heat-resistant. They do not melt or deform, and their silicone head protects the coating of pots and pans. Easy to clean, they are essential in any kitchen.
